

REBECCA IZOD

About Me

I have worked in the Financial Services Industry for far too many years to admit to! Originally I started life behind the counter in a local Building Society and before joining Enable in 2001, I worked as a Financial Adviser for a high street bank for a number of years. Mortgages and Protection is my speciality and I very much enjoy all aspects of my job. It is great to see people take their first steps on the property-owning ladder and equally exciting to then see them get married, start a family and move onto bigger and better houses!

My clients' are very important to me and I always genuinely have their best interests at heart. I view every client as a 'client for life' and always look forward to their regular reviews with me each year. A lot of my business comes from existing clients' recommending me on to their family and friends and that is satisfying to see.

Qualifications

Certificate for Financial Advisers - Client Assessment and Advice
Certificate for Financial Advisers - Financial Products
Institute of Financial Services - Certificate in Mortgage Advice and Practise
Member of The Life Insurance Association by Diploma MLIA (dip)

Personal

I have lived in the town, been educated in the town and worked locally all my life.
I have 3 children who keep me on my toes!

When not working or running around after my family I enjoy Pilates, power-walking, reading, eating Indian food and drinking red wine... although not all at the same time!
